Mayur Raj

Bengaluru, India – 560059 | LinkedIn | GitHub | Portfolio
Full Stack Developer | Python Developer | Software Engineer | mayurrajrajput07@gmail.com | +919741219496

Professional Summary

I'm a **Full Stack Developer** and **Python programmer** passionate about **building web applications that solve real problems**. I have experience creating **scalable, responsive apps** with Next.js, React.js, Node.js, and MongoDB, and I use Python to **automate tasks and manage data efficiently**. I enjoy **designing real-time features, optimizing backend processes, and writing clean, maintainable code**. I thrive in **collaborative teams**, turning ideas into **functional, user-ready solutions** with real impact.

Skills

- **Languages:** JavaScript, Python, C++, C
- **Frontend:** Next.js, React.js, HTML5, CSS3, Tailwind CSS, ShadCN UI
- **Backend & Database:** Node.js, Express.js, MongoDB, SQL, Prisma, Socket.io
- **Tools & Platforms:** AWS, IBM Cloud, Salesforce, Basic Linux, Git, Postman, Inngest, Resend
- **Other Technologies:** JWT, Gemini AI API, Clerk Auth, REST APIs, Stripe API, Cloudinary, DSA
- **Soft Skills:** Effective communication, Problem-solving, Team collaboration, Time management

Education

ACS College Of Engineering — **Bengaluru, India**
Bachelor of Engineering (B.E.) in Computer Science — *Graduated June 2025*
CGPA: 8.25 — **View Certificate**

Work Experience

Rooman Technologies Pvt. Ltd. — **Bengaluru, India**
AI - Data Quality Analyst Intern — Sep 2024 – Feb 2025

- Cleaned and structured over **50,000+ data entries**, increasing training dataset accuracy by **25%**.
- **Automated** key preprocessing tasks using **Python**, reducing manual work by **~30 hours/week**.
- Collaborated with cross-functional teams to implement **5+ quality checks**, improving data reliability by **18%**.

Projects

Welth – AI Finance Platform — **Live Demo (Vercel)** | **GitHub**
Tech Stack: Next.js, Tailwind CSS, Clerk, ShadCN UI, Prisma, Supabase, Inngest, Resend, Vercel

- Built a personal finance platform with secure Clerk auth, account-wise transaction tracking, and budget management.
- Added AI-powered features using Gemini API for auto-fill and spending summaries.
- Integrated recurring transactions, Inngest cron jobs, and email alerts via Resend.

Learning Management System (LMS) — **Live Demo (Vercel)** | **GitHub**
Tech Stack: React.js, Node.js, Express.js, MongoDB, Clerk, Stripe, Cloudinary, Multer, Axios

- Developed a full-stack LMS with secure Clerk-based authentication and Stripe payment integration.
- Built modular course dashboards, progress tracking, and real-time updates.
- Integrated Cloudinary and Multer for efficient media storage and file uploads.

E-Commerce Website — **Live Demo (Netlify)** | **GitHub**
Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Stripe API, JWT Authentication, Cloudinary

- Created a complete e-commerce solution with cart, checkout, and admin panel.
- Used JWT for user authentication and Stripe for secure payment workflows.
- Ensured responsive design with Tailwind CSS and image optimization with Cloudinary.

Real-Time Chat Application — **Live Demo (Render)** | **GitHub**
Tech Stack: React.js, Node.js, Express.js, Socket.io, MongoDB, JWT Authentication,

- Developed a real-time chat platform with support for one-on-one and group messaging.
- Used Socket.io for bi-directional communication and real-time message updates.
- Implemented JWT authentication and persisted messages in MongoDB.

Certifications

- **React JS Certification**, Scaler, 2025 — **View Certificate**
- **CRM Certificate,** Capgemini Student Transformation Program, Oct 2024 — **View Certificate**
- **AI - Data Quality Analyst Certification**, Rooman Technologies Pvt. Ltd., 2025 — **View Certificate**
